Relevant Experience

Co-Founder & Developer, Smart Points Ltd., DBA LoyLap — 2013-Present

Led development and maintenance of LoyLap iOS Member and Merchant apps. Used by tens of thousands of people and have processed millions of euros of transactions across the UK, Ireland, United States and Canada.

Primary deployer of the LoyLap White Label App Portfolio (80 apps).

Acted as Scrum Master, facilitating agile workflows and improving web dev team efficiency.

Maintained and contributed to the LoyLap Android Merchant app, ensuring parity with iOS features.

Oversaw and onboarded all technical interns, providing mentorship and guidance.

Maintained company website and fulfilled PCI/GDPR compliance officer duties across the organisation.

iOS Developer, EduSoft — 2012

Recruited and led a development team of three, handling interviews and onboarding. Sought and received funding.

Designed, developed, and maintained Clever Campus, a timetable application for Dublin City University students and was used by over 25% of junior freshman in the college.

Education

Trinity College Dublin, BSc Computer Science

Final Year Project was an iOS Polynomial Equation Solver/Connect4 2D Game built with OpenGL ES
